  - 12-week immersive learning program for Web Development taught with industry-guided curriculum, real-world project-based learning, and 500+ hours of logged coding time and training
- **Indiana University, Bachelor of Science in Public Affairs, Bloomington, Indiana, May 2020**

### Competencies & Functional Skills:

Problem solving, troubleshooting, creativity, visual communication, collaboration, project management, critical observation, analytical thinking, organization, portfolio development, attending and resolving business challenges.

### Technical Skills:

**Languages:** JavaScript, Node.JS, React, Heroku & Firebase deployment, TypeScript deployment

**CI/CD:** Trello, Figma, Git

**Databases:** SQL Server, DBeaver

**Web Technologies:** HTML, CSS, APIs, Microsoft Power Platform, stateless components, session validation, responsive web design

### Technical Projects:

- **PhotoLink React App** <https://photolink-client.herokuapp.com/>
  - Utilized HTML 5, CSS 3, Material UI, Javascript and Cloudinary to create a photography app that allows users to upload photos to their page, search other user's photos, and leave reviews.
- **MyPlanner React App** <https://bb-planner-client.herokuapp.com/>
  - Utilized HTML 5, CSS 3, Reactstrap 4, and Node to design & build a planning app with login and signup functionality.

### Professional Experience:

**RoboSource**, Fishers, IN

January 2022 – March 2022

*RPA Developer*

- Developed Cloud and Desktop flows using Microsoft Power Platform (MPP) to automate day to day business tasks for clients in order to allow them to reallocate resources and increase efficiency.
- Integrated Azure queues and API calls into MPP processes and conducted end to end testing to optimize runtimes.
- Created templates using HTML and CSS for emails that are sent to RoboSource clients which improved brand identity.

**Pfortune Art and Design**, Indianapolis, IN

August 2020 - January 2022

*Contracting Assistant*

- Job-shadowed owner to gain understanding of complexities of operating a business while reducing time needed to complete jobs and increase productivity of other employees by taking on extra tasks where needed.
- Negotiated with customers to comply with requirements based on company resources providing a high percentage of satisfaction.

**Biodynamic Ventures**, Indianapolis IN

May 2019 - Oct 2019

*Project Intern*

- Managed and cultivated over 12 acres of genetic hemp plants valued at upwards of \$1.1M for company's CBD product line in collaboration with 10 other team members over the course of a summer.
